PROFESSIONAL EXPERIENCE

End-of-Studies Internship – Macroeconomic Analysis & DSGE Modeling – Banque Centrale de Mauritanie (BCM) February 2026 – May 2026

- Nouakchott, Mauritania
- Produced a master's thesis in Econometrics and Applied Statistics comparing monetary regimes in Mauritania using a small open-economy DSGE model.
- Analyzed monetary policy transmission mechanisms, inflation, exchange rate dynamics, and macroeconomic trends in the Mauritanian context.
- Structured macroeconomic and monetary time series from BCM, ANSADE, and international databases for calibration and simulation.
- Contributed to the department's conjunctural analysis, macroeconomic forecasts, and monetary statistics.
- Environment:** Econometrics, DSGE, Python, R, Excel, Julia, GAMS.

End-of-Study Internship – Caisse des Dépôts et de Développement (CDD) February – June 2023

- Nouakchott, Mauritania
- Analyzed banking data from CDD to assess the impact of the credit guarantee system on loan defaults in Mauritania.
- Used econometric models and modern machine learning approaches to predict default risks.
- Prepared and interpreted statistical reports on the socio-demographic and financial characteristics of borrowers.

Worker Internship – Agence Nationale de la Statistique et de l'Analyse Démographique et Économique (ANSADE) April – June 2022

- Nouakchott, Mauritania
- Developed a methodology for data mapping to design sectoral accounts.
- Participated in the collection and processing of economic branch data for national accounts.
- Analyzed sectoral data using ERETES software to compile economic accounts.
- Trained on GDP decomposition techniques as part of the International Comparison Program.
- Contributed to the national survey process for the mobilization and quantification of ZAKAT.

PROJECTS

Modeling the Drivers of Mauritania's GDP (ARDL) – Econometric growth modeling

- Econometric modeling of Mauritania's growth dynamics using an AutoRegressive Distributed Lag (ARDL) model in R. GitHub.

Poverty & Inequality Forecasting in Mauritania – Poverty indicator forecasts

- Forecasts four key poverty indicators from 1996 to 2030 using survey data and interpolation techniques to support policy planning. GitHub.
